

PRELIMINARY PROGRAM

SNIS Cerebral Venous and CSF Disorders Summit

March 19 – 21, 2025

Prince Waikiki Hotel | Honolulu, Hawaii

Building on the success of our first two meetings, the Society of Neuro-Interventional Surgery's Committee on Venous and CSF Disorders is excited to announce the third Cerebral Venous and CSF Disorders Summit, to be held from March 19-21, 2025 at the Prince Waikiki Hotel in Honolulu, Hawaii. In 2025, we will continue to build upon last year's program and progress, sharing experiences, ideas, and techniques in this rapidly growing space in neurointervention.

The Summit is intended to be a high-level strategic meeting of clinical, research and industry leaders interested in growing this novel domain of healthcare. We welcome all interested parties as we discuss ongoing research, new developments, and future trials/publications.

Participants will be able to attend in-person or virtually. The link for registration can be found [HERE](#).
